

Christmas Flower Stamp

Submitted by Lani Hee of Lei `Ilima and Kathy Uehana of Happy Hens FCE Clubs

Supplies needed:

Scissors

Rubber Band or Tape

White paper or brown paper wrap

Red and Green stamp pads or paints

Two 2" X 10" corrugated cardboard pieces cut from a corrugated box

Instructions:

1. Roll each cardboard piece in a tight roll and secure with rubberband or tape. You will end up with one roll for the poinsettia petals and one for the leaves.

2. To form the teardrop shaped petals of the flower and leaves, squeeze the circular shape on one end of the roll to form a teardrop. Do the same with the other roll.

3. Use one corrugated stamp and the red stamp pad to stamp onto your paper petals in a circular formation to make a flower. Use the other corrugated stamp and green stamp pad to stamp leaves onto your paper.

Tip: If you do not have stamp pads, you can cut felt pieces and soak them with red acrylic or other water based craft paint to make a stamp pad for the flower petals. Use another piece of felt and green paint for the leaves. Apply additional paint to the felt as needed.

You can use the stamps on brown or white paper to make wrapping paper, gift tags, cards, and other things.

Christmas Flower Stamp is an adaptation of the corrugated rose stamp from marthastewart.com
